Then and Now.

The readers who have been keeping up with the addresses thus far delivered in connection with the Jamestown Exposition sh uld be well versed in the early history of the founding of civilization upon these Western shores. There can be no more interesting spot between ocean and ocean, or lakes and gulf than this birth spot of American civil government, and h w the mind well nigh bends under the load as grandiose there it undertakes to review the history of the past 300 years. Human history has no parallel in progress, and, but that it has been actually written, much of it in blood and tears and all of it in chival ic effort and heroic toil, which has been seen and read by all men, it would seem as a dream, a fairy tale of fevered imagination. It is a splendid sanity and angels and mortals must look upon it with thinking interest. The heritage is ours and what are we going to do with it?

Plutocrats and politicians unrestrained would destroy it. The people projected the splendid scheme, they have cared for it and under God's guidance must continue the guardianship or all is lost.

As to the rescue then, ye people, who have been so highly favored of high heaven.

RAILROADS AND THE PEOPLE.

It is an unquestionable truth, and a truth which I am glad to see that the public is now gradually beginning to realize, that the capacity of the transportation companies in a section measures the productive capacity of the people of the section. The farmer cannot produce more upon his farm, the manufacturer in his factory, the miner from his mines, or the woodsman from the forests, than he can get carried to market. To limit, therefore, the capacity of the transportation company is to limit the productive capacity of all the people, and to cripple the capacity of the transportation companies is to cripple the productive capacity of all the people. It is, therefore, to the public interest that the transportation capacity of these railroad companies should not be crippled, and it may be stated as a universal truth that no section can be permanently prosperous that is not served by strong and prosperous transportation companies capable of growing with the growth of the section, and of affording increased facilities as the expanding energies of the people may require.

It is given out authoritatively that while the naval display in connection with the Jamestown exposition will not be as impressive during the entire time to be covered by the exposition as it has been in the earlier days, it will be attractive and interesting from start to finish. There will always be open to inspection a number of war vessels of fine magnitude, so that no one need leave the Exposition without vivid recollections of the fighting sea crafts. This feature has never before been presented by any entertainment of like kind, and is of itself sufficient to invite the attendance of the masses of our people. No Virginian should fail to attend who can possibly do so. The opportunity will never return.

The President has tackled a job that of sending his Alice's husband to the U. S. Senate, which he will find to be tougher and rougher than any "rough ride" undertaking of his life.

Notwithstanding the prolonged and severe cold weather of spring the promise of "seed time and harvest" remains sure, and the God of all lands and sea, of earth and Heaven, is behind the promise.

At a recent cabinet meeting the subject of discussion was "Ohio matters." Son-in-law in danger.

Sheppards.

Our folks keep busy these days at least the white folks do. The African-American citizens dearly love a holiday, and so all quit off last Monday because it inter fe'r holiday. But they keep holiday any old time, so it is up to the white folks to do their own work, and I am mighty glad to say that around Sheppards the white men, and women too, do not think there is any disgrace in honest labor.

A larger number than usual of our farmers are cutting out tobacco from their routine of crops this year, and almost without exception the tobacco that will be raised will be "share crops,"—planted more for the sake of improving the land, than from expectation of profit from the tobacco itself.

A number of our folks are sick. George Carter is out and about again, so is Mr. Elcan, but Mr. Gillispie, Mr. Gernett, Joe Penic and several others are still on the sick list.

Dr. J. T. Whitley, Presiding Elder of the Farmville District, will preach at Smyrna next Sunday, at 3 p. m. and Monday at 11 a. m.

Phup—LeSuer.

On Wednesday evening, May the 15th, the home of Mr. and Mrs. Moses LeSuer, was the scene of a beautiful wedding, when their daughter, Etta, became the bride of Mr. Jimmie Phaup. They are a well known and popular couple of Buckingham County.

The parlor was beautifully decorated for the happy event, the color scheme which was white and green. was carried out to its fullest extent and the decoration was arranged, as to form an arch, under which the bridal party stood, and thus presented a beautiful picture to look upon.

As the wedding march was being rendered on the organ by Mrs. Julia Kyle, the bridal party entered the parlor as follo s:

Miss Nannie Davis with Mr. Wm Hyphes, Miss Elner Davis with Mr. Robert Baird, Miss Nannie Baird with Mr. Moses Shepherd, Mi s Ruth Phaup with Mr. Jimmie Marks, Miss Minnie Biard with Mr. George Phaup, Miss Annie Phaup with Mr. Irvin Saunders. Then came the two little flower girls, Mattie and Carrie Davis, followed by the bride leaning on the arm of the groom

The ceremony was performed by Rev. W. Johnson while Mr. Matthew Davis, uncle of the bride, acted as master of ceremonies.

The bride was attired in white silk dress; with veil and gloves to match and carried a bouget of bride roses tied with white ribbon.

The bride's maids all wore white organdies, and carried white and green boquets, while the men wore the conventional black.

After spending an hour or so in best wishes and congratulations the party retired to the dining room, where the dining table swayed beneath the burden of a luxurant supper prepared for the happy event.

The laugh and chatter of the young people reverberated through the house and yard until about 9 o'clock, when the music rendered by Messrs. Hurbert, Marshall Claborn, William Simons, William Foster and George Phaup ended them all to their respective places where they kept time to the music until the wee dawn of day, when they went home declaring Mrs. LeSuer the most hospitable hostess of the day.

After a day of rest the party again assembled at the home of Mrs. L. V. Phaup, mother of the groom, where after partaking of an elegant supper, given in honor of the occasion, they assembled in the parlor, where the music furnished by Messrs John Baughn, William Foster and Willie Bailey kept them busy until day, when they bode farewell to their hostess, and wishing the bride and groom a long and happy life, returned to their homes with weary bodies but happy hearts.

A Mineral Water that Defies Drugs

NATURE'S GREAT BLOOD TONIC

The recent drug exposures in this Country have proven to all that deadly poisons and stimulants lurk in many Patent Medicines. You never know when you might be taking some of this class.

Nature has made ample provision for restoring vigor and vitality to humanity, and the public, as well as doctors, resort to Natural Remedies, when all others have failed.

Are you troubled with **Dyspepsia, Nervousness, Malaria, Kidney** or **Bladder Trouble, Chronic Diarrhoea or Dysentery,** and above all, that dreadful disease **Scrofula,** which has almost baffled human skill, or **Diseases peculiar to Females?**

Piedmont-Bedford Concentrated Iron & Alum Water

Is Nature's Remedy for Nature's Ills. Yes, when you consider that disease comes from impoverished or run down conditions of the system, this Natural Mineral Water furnishes the system what it needs.

The analysis of this Water, shown on the bottle, tells you what **Nature thinks you should take when sick,** and the doctor who reads it will agree.

Do you think the grouping together in this Water of 17 different minerals, which are recognized by medical writers as **most powerful blood tonics,** could have been accidental? Reason answers, NO!

An 18-oz bottle of Piedmont-Bedford Concentrated Iron and Alum water contains all the minerals of 25 gallons of the average natural water—Then **why buy a barrel of water when you can get a bottle of minerals at the trivial cost of one dollar.** The dose is a teaspoonful in a glass of your own spring water.

How this Water acts upon the system is not clearly known. It is judged mainly by its works. It has cured all the diseases numerated above, and many more, evidently through its action as a powerful **BLOOD TONIC.**

We have many valuable certificates, which we will be glad to mail, if you are interested.

Appomattox High School Commencement.

Owing to the lack of a suitable place to accomodate the people, the public was not invited to attend the commencement exercises at Appomattox High School this year. In fact there were no exercises except the awarding of medals and distinctions and a short address by Prof. A. S. Marye, of Washington, D. C., who has a very interesting Shakespear class in town.

The teachers assure us that the commencement exercises have not been abolished permanently for Appomattox, but only this time for the above reason.

John Johns Found Dead on Railroad.

A colored man named John Johns was found dead on the N. & W. Ry. track four miles west of Concord Sunday a. m. about 9 o'clock; he was killed by a west bound freight train at 7:40 a. m., and lived on the C. & O. Ry. one mile east of Six Mile Bridge. Being intoxicated it is supposed that he took the wrong road on his way home.

His general appearances showed that he sat on the track to rest and leaning backward with his head over the rail went to sleep. He was found with his head entirely severed from his body, and a basket of provision by his side containing a quart whiskey bottle and the contents two-thirds gone.

The coroner's jury, Messrs. B. B. Wilson, J. J. Simerson, E. S. Lee, J. P. Scruggs, C. H. Akers, T. H. Fisher and Dr. W. L. Ould rendered a verdict that he came to his death by being intoxicated and sitting on the track dropped off to sleep with his head across the rail.

The alarm whistle was sounded by the approaching train, extra 789 West, but the fiend of intoxication had him too much under control to heed.

Hixburg.

The farmers aroufid are busy planting tobacco. Mr. J. W. Gilliam has planted over half his crop.

This is the month of birds and flowers. All nature seems rejoicing this delightful morning, owing to a refreshing shower, that came last evening. Some small hail also fell, but did no damage.

The crops in this community are promising. Wheat and oats are looking unusually fine. Yet we cannot tell what the harvest will be.

Farmers are preparing tobacco beds. Most of the plant beds are late, yet I guess not one hill less will be planted at last.

Mr. T. L. Drinkard is planting on this season, having already planted fifteen thousand last week.

The parsonage at Vera is almost finished. It was erected under the care and supervision of Rev. Mr. Allison, a most indefatigable worker. It is the admiration of all who pass by, and though justly worth $1500.00, yet it has not cost more than half of that amount. Some one suggested that he would fit so nicely in the itinerant system, "verbatim."

Mr. Richard Phelps is having a comfortable addition built to his house.

Mr. J. N. Phelps, of Lynchburg, visited his friends yesterday.

Miss Jennie Turner is visiting her brother in Lynchburg.

Rev. Mr. Murphy preached to a fair congregation at Mt. Comfort last Sunday evening. He is justly popular with all his people.

The Sunday School is increasing in numbers and interest. One member came out and with him three grown sons, four daughters and a niece. How few christians appreciate the importance of Sunday School work, and how many think that a few members of the church can and should carry on the work. It is indeed a grand privilege to work for the Master in a Sunday School, and if every one who could would attend, what a mighty power for good it would be in every church.

Miss Maria Wheeler and niece, who have been visiting in Lynchburg, have returned home.

Mrs. S. G. Payne is visiting her niece at Gladstone.

Mr. J. A. Brooks is somewhat improving, but still confined to his bed.

Mr. J. H. Steele still improves slowly, being able to walk around carefully on good days.

Mr. W. C. Akers being in Roanoke attending the burial of his son, Elmer H. Akers, stopped with his family here a few days, and returned to his duties on the S. A. L. Ry. last Thursday.

Messrs. W. H. Steele and B. R. Carson attending the commencement at Spout Springs last Friday night horse back, met with some bad luck on their way back. Mr Steele's temperatuous pony getting frightened became so unruly that he preferred the dark and muddy journey afoot. Upon alighting against his will he bade the horse a fair good night, reaching home at 3 a. m. Mr. Carson's horse got badly cort in a wire fence, he also walked but held on to the bridle.

by local applications, as they cannot reach the disease portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Three Disasters:

Common with Credit Houses. One said: "I will pay you Saturday night if I live." HE'S DEAD. Another said: "See you tomorrow." HE'S BLIND. Still another: "I hope to pay this week or go to H——." HE'S GONE.

Moral:

Spend your cash with a cash house (Thats us) where you don't have to pay for these misfortunes.

MONTOONA

is now standing at my farm three-quarters of a mile from Appomattox depot. I am attending to him myself this season and hope to give the people better service than they had last Spring. Montoona is not only a prize winner himself but several colts that have won first prizes at Fairs and Horse Shows in all parts of the State. In breeding to Montoona you get a horse that has all the size you want for farm and they hook up and drive good, and most of them are good saddlers; taking as a whole they make an ideal farm horse, and when you go to the market to sell them they have reputation enough to sell them selves, and will always bring from twenty-five to fifty dollars more than a horse whose breeding is not known or that has none. I am not getting over half the money that the party from whom I got him charged, and there is not a horse in the State that has as good breeding that is standing for as small sum. Any one wishing his pedigree can get it by dropping me a postal. I take pleasure in showing him to you at any time, as well as some of his colts. J. O. O'BRIEN,
